1. Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

2. The abstract of the disclosure is objected to because it is in two paragraph form and it is too long. Correction is required. See MPEP § 608.01(b).
3. The disclosure is objected to because of the following informalities: The brief description of Fig. 15 is repeated, and there is no brief description for Fig. 16.
Appropriate correction is required.

4. Claims 11-13 and 17-19 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim may not depend

on another. See MPEP § 608.01(n). Accordingly, the claims 11-13 and 17-19 are not been further treated on the merits.

5. Claims 1-10, 14-16 and 20 are allowed. The prior art did not disclose Applicant's "... frequency characteristic correction means for ..."

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

7. This application is in condition for allowance except for the following formal matters:

(See the above formal matters).

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David Mis whose telephone number is (571) 272-1765. The examiner can normally be reached on Monday through Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert Pascal can be reached on (571) 272-1769. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
